children who have no organization, who have no designated advocate in this body, we certainly should support it. I'm sure Senator Schrock, if something were being done to diminish subsidies for farmers and others in agriculture were to see a chance to have an amendment offered to a bill that would restore those subsidies, he would not say this whole thing should go through the budgeting process and it should not be changed by way of an amendment on the floor. He and others would push Senator Kerrey, Senator Exon to try to get something done to amend that bill.

SENATOR MORRISSEY: One minute.

SENATOR CHAMBERS: But it's only when the defenseless, when the voiceless, when the helpless are involved do we suddenly say that the system, the form are more important than the substance. It's a little help, but we should give it, and I did talk to the Director of Legislative Research and she indicated that the \$30,000 would be an amount that would let this program do the things that we would like it to do. We hired a new person in a position of leadership and we should give that person the opportunity to function and not tie tin cans to her that we might have felt like tying to the other man before he escaped. I hope you will support this amendment.

SENATOR MORRISSEY: Thank you. You've heard Senator Chambers' closing. We will now proceed to vote on the Chambers amendment to the Hefner amendment. All in favor vote aye, all opposed vote nay. Have you all voted? Record, Mr. Clerk.

CLERK: 25 ayes, 7 nays, Mr. President.

SENATOR MORRISSEY: The amendment is adopted. Senator Hall, would you like to recess us until one-thirty.

SENATOR HALL: Mr. Speaker, it would be a pleasure. I move that we recess until one-thirty this afternoon.

SENATOR MORRISSEY: Any announcements, Mr. Clerk?

CLERK: I do, Mr. President, very quickly. Appropriations Committee will meet upon recess in Room 1003; Appropriations in Room 1003 upon recess.

A series of study resolutions. LR 121-134 introduced by a
